Fidelity Bonding: Insurance for Your Employees

What Is A Fidelity Bond?

A fidelity bond protects employers against employee dishonesty, theft or embezzlement.

A fidelity bond is No-Cost insurance coverage that enables employers to hire job applicants considered “at risk” due to their past life experience.

Who is Eligible?

Bonding assistance is available to people who have a firm offer of full-time work and any of the following backgrounds:

- limited work history
- poor credit history
- a record of arrest, conviction or imprisonment or
- a dishonorable military discharge

Note: Self-employed individuals are not eligible for the program.

Applying is Easy

The application process is simple and quick. Employers are not required to fill out forms.

1) Job applicants or employers (on behalf of the job applicant or employee) can request fidelity bonding by calling or visiting a nearby IDES office. To identify a nearby office, call 1-888-367-4382 or log on to www.ides.state.il.us.

2) If an applicant meets eligibility criteria, bonding becomes effective immediately following certification and on the applicant's first day of work.

3) Upon certification, the coverage provider mails the bond directly to the employer.

Coverage

An employee can be bonded for at least \$5,000 depending on the person's job responsibilities. Coverage usually begins on the new employee's first day of work. The bond initially covers a six-month period. After that time, if a bond still remains a condition of employment, employers can renew the bond for an additional six months (only one renewal per bond issued) or purchase the bond from the coverage provider at a regular commercial rate.

Fidelity Bonding Benefits All

“Every day I have to turn down job applicants because they aren't bondable.”

- Employer

“Finding a job can be tough, but getting hired is much more difficult if you aren't bondable.”

- Job Applicant

Program Success

Since the program's inception in 1966, approximately 43,000 bonds have been issued with a 99 percent success rate. Also, employers who use fidelity bonding insurance have the added benefit of turning unemployed applicants into taxpaying workers.
